“ *My sweet Joyce is now gone! A woman who touched me deeply as a child and young woman. A calming and peaceful force who has made her mark on my world, my father's, and countless others. We were kindred spirits in our love and appreciation for the environment and it's creatures. I will forever think of Joyce and remember her when I see the sweet face of a baby white seal. I recall a day when we were working together at my Dad's store and she educated me on the fragility of their extinction as we looked at precious pictures of a seal calendar. She will be so missed, was deeply loved, and loved deeply!*
